

# Adhipen Bose Nandhiji

Consciousness is the path towards coexistence,  
togetherness, prosperity & peace.

YOGI

ENTREPRENEUR

HUMANITARIAN

VISIONARY

- **Adhipen Bose Nandhiji** is a Siddha Yogi, humanitarian, author, consciousness mentor, and founder of multiple global initiatives dedicated to the awakening and evolution of humanity. Rooted in the ancient Siddha traditions of India, Nandhiji's teachings weave together meditation, mantra, consciousness science, breathwork, leadership empowerment, inner transformation, and universal spirituality into practical pathways for modern life.
- He is the **Founder and CEO of CNESS Inc.** envisioned as a revolutionary Consciousness SuperApp and global ecosystem connecting purpose-driven individuals, communities, enterprises, creators, and conscious leaders worldwide. Through the integration of technology and spiritual wisdom, CNESS seeks to help build a future centered on human wellbeing, elevated awareness, ethical leadership, and collective evolution.
- Nandhiji is also the founder of the **Declaration of Consciousness Movement** - a humanitarian initiative inspiring humanity to transcend division through consciousness, compassion, coexistence, and unity. His annual global initiative, **World Yogi Day** - celebrated during Mahashivratri, brings seekers and leaders together through meditation, mantra, music, yogic wisdom, and conscious leadership practices.
- His core body of work, **Mastery of Consciousness**, is designed to support instantaneous awakening and the expansion of consciousness. Through this platform, Nandhiji shares meditation, yoga, Siddha chant music, and spiritual teachings for seekers across the world. His Siddha mantra music, including Turiya Nada, has been energetically calibrated through kinesiology with the intention of helping dissolve the limitations to enlightenment.
- Through speaking engagements, online teachings, workshops, music, and social platforms, Nandhiji reaches a global audience seeking deeper meaning, awakening, healing, and transformation. His core message is that true leadership emerges through awakened consciousness, inner stillness, compassion, and alignment with the Divine.
- Nandhiji's vision is to help humanity evolve from survival consciousness into enlightened consciousness - where wisdom, unity, creativity, and higher awareness become the foundation of civilization itself.

## SIDDHA YOGI

Rooted in ancient Siddha traditions,  
guiding humanity towards inner  
awakening, self-mastery and  
higher consciousness.
